NOTICE TO MANUFACTURERS.—
For some time past, we have been engaged in building, and preparing to build, "Brundred's Patent Throstle." Having now completed our stock of hole for that purpose, we are able to build these machines with greater accuracy and dispatch than previously, and to recommend them with confidence to the attention of manufacturers. These machines have been in successful operation for the last four years. They will do as much work as the Danforth Throstle, with one third of the power. The twist is more uniform than from any banded spindle, the use of bands being dispensed with. In strength and durability, this Throstle is acknowledged, by competent judges, to excel every other spinning machine. Many of the Live-Soindle Throstles can be altered to the new principle, so as to turn off nearly double the former quantity of work. The Danforth Throstle can also be altered, so as to give the full quantity of garm, though reducing the power at least two thirds. These Throstles are now in active operation in the factories of Messey. J. P. Chrysler & Co., of Kinderhook, and Alfred Wild, Esq., of Cohoes Falls, to whom we refer the public for information, as to their practical working. We are prepared, as usual, to execute orders for Cotton, Woolen and Flax Machinery, Casting, Mill Gearing, Shaffing, Pullies, &c., as well as all other articles in our line of duranes.

We show it more just to purchase a next to use a valid patent than to infringe it. Mr. Day after having been prosecuted, acknowledged Goodyear's rights, made a settlement and acreed in future not to mirringe his natends. He is now attempting not only to infringe said patents but to injure us also, who have for a large consolvration purchased our liveness and now work under them, and we charge Mr. Day directly, and that over our negratores, with parating upon Goodyear's Patents in the manufacture of the shoet which he is offering to the public; and we give notice that he and all who are concerned with him in purchasing or vending his shoes made in violation of said patent right will be prosecuted. The parties above named, who falsely charge H. H. Day with pirating a Patent owned by them and their confederates, called "Goodysar's Patent," ment my special attention at this time. In exposing this pretended Patent is a "fraud and swindle." These serious charges I made in the newspapers over my own name. While their countries in the newspapers over my own name. While their cut at his was pending and at issue before the constituted tribunals of the country, the parties took their testimony, had it printed: the combination called thee her about a dozen lawyers, and brought to Treaton their principal witnesses; the suit at law for \$30.000 damages was called in open Court this suit involved the title to the Patent. I offered to try it, the combination backed out. I demanded judgment of measure, which have often obtained arminst this swinding Patent.
